Can Duy Huy

Technical Project Manager | Development Manager

0941289611 huycd.work@gmail.com https://www.facebook.com/huycan.dev79/ THACH THAT, HA NOI

Technical Project Manager with a Front-End engineering background and more than 3 years of experience in software development and project delivery.
Currently managing 4 ongoing projects and coordinating approximately 20 team members, including Backend, Frontend, Fullstack Developers, and Team Leads.
Experienced in project planning, stakeholder communication, resource coordination, progress tracking, and cross-functional team management. Worked closely with business partners and clients to ensure successful product delivery and alignment with business objectives.
Previously specialized in Angular and modern web development, with hands-on experience in building enterprise applications, MiniApps, and large-scale digital platforms.
Successfully contributed to the MB Payment Speaker MiniApp, a leading payment notification solution serving more than 242,000 users.

SKILLS

MANAGEMENT EXPERIENCE	Development Manager / Department Manager 2025 - Present Responsibilities: • Manage approximately 20 team members, including Team Leads and Developers. • Oversee multiple product teams and ensure project delivery quality. • Plan resource allocation and project roadmaps. • Coordinate with Business Analysts, Product Owners, QA teams, and external partners. • Monitor project progress, risks, and delivery timelines. • Support recruitment, onboarding, mentoring, and performance evaluation. • Establish development standards and code review processes. • Drive continuous improvement initiatives across development teams.
CAREER-RELATED SKILLS	Technical Background • 3+ years of experience in software development and project delivery. • Managing 4 concurrent software projects. • Coordinating 20+ team members across multiple development teams. • Working with 3 Team Leads (Frontend, Backend, Fullstack). • Delivered products in Banking, Fintech, Healthcare, and Merchant Management domains. • Contributed to MB Payment Speaker MiniApp, a leading payment notification solution serving more than 242,000 users. • Participated in architecture design and foundation development for the MIC360 MiniApp Platform.

EXPERIENCE

MB Payment Speaker MiniApp 2023 - Now

Project Manager / Team Lead

Technologies: Angular, TypeScript, Bootstrap, RESTful APIs
Project Overview:
A payment notification MiniApp integrated with MB Bank ecosystem, currently serving more than 242,000 users and recognized as one of the leading payment speaker solutions in the market.
Responsibilities:
• Led Front-End development team and coordinated daily development activities.

• Collaborated directly with MB Bank stakeholders, BA teams, and external partners.
• Planned sprint tasks, estimated workloads, and tracked project progress.
• Conducted code reviews and maintained development standards.
• Designed and implemented scalable UI components and business workflows.
• Supported deployment, testing, and production issue resolution.
Achievements:
• Successfully delivered multiple key business features and product enhancements.
• Contributed to scaling the platform for over 242,000 users.
• Improved development efficiency through reusable component architecture.
• Reduced defects through code review and development process optimization.

ILU PET Platform 2025 - Now

Team Lead

Team Leader
2026 – Present
Technologies: Angular, Tailwind CSS, TypeScript
Project Overview:
A digital platform supporting merchants, veterinary clinics, and pet owners in managing pet information, vaccination schedules, identification records, and insurance-related services.
Responsibilities:
• Led Front-End development activities and coordinated project delivery.
• Worked closely with Business Analysts and stakeholders to clarify requirements.
• Designed and developed merchant management and pet management modules.
• Built responsive and user-friendly interfaces using Angular and Tailwind CSS.
• Managed task allocation and monitored team progress.
Achievements:
• Delivered merchant and pet management modules successfully.
• Improved operational workflows through optimized user experiences.
• Established reusable UI components to accelerate future development.

MIC360 MiniApp Platform 2026 - Now

Technical Lead / Project Manager

Technologies:
Angular, Nx Monorepo, TypeScript, Tailwind CSS, Native Bridge SDK
Responsibilities:
• Participated in system architecture design and platform foundation development.
• Directly developed core modules and reusable components.
• Established project structure and development standards.
• Coordinated development activities and project delivery.
• Worked with stakeholders to clarify business requirements.
Achievements:
• Built foundational architecture used across multiple MiniApps.
• Reduced development effort through reusable modules and shared libraries.
• Successfully delivered key product features and platform capabilities

VNDoctor Platform 2026 - Now

Project Manager

Responsibilities:
• Managed project planning and delivery activities.
• Coordinated development teams and stakeholders.
• Monitored progress, risks, and release schedules.
• Supported requirement clarification and solution discussions.
Achievements:
• Successfully delivered healthcare-related product features.
• Improved collaboration between business and technical teams.
